Very good puzzle game :). I think at this point I am tapping out. 10+ hours and it's too grind-ey and annoying. I'll go back in for

little bits but finishing this just feels like a chore. It has such potential, and if you are smarter than me perhaps it won't be as infuriating for you. Play it for sure it's cute and runs smoothly for me, but it's a commitment if you want to get to the later levels..
